Phil Parker Lightning Process® Practitioner Training

“I have been very impressed with the results of the Lightning Process. I have seen the lives of some of my patients transformed by this self empowering technique. Everyone who has battled with chronic illness and wants to win should have the opportunity to do the Lightning Process.”

**Dr Rajesh Munglani, MB
BS DCH DA FRCA
FFPMRCA Consultant in
Pain Management**

“I hope the importance of this innovative approach to medical health will spread rapidly to the practice of medicine and to all who need it.”

Dr Susy Mikkelsen, MD

The Lightning Process (LP) is an empowering training course, which teaches individuals how they can influence their health and life using techniques based on the way the brain and body interact. Clients explore the science behind how beliefs and behaviour patterns can affect lives and health, and discover how to turn these into a complete strategy for success.

The LP practitioner training course follows on from the Diploma and Masters courses, building on the skills you learnt to teach you how to run Lightning Process seminars to your clients.

Basic structure:

- 3 full days of training: observing Phil Parker run a complete LP seminar and an in-depth training following each session
- 2 LP observations with different practitioners
- 2 day: delivery skills workshop
- Question and Answer skype session with Phil
- Written and Practical Exams

“Having seen the Lightning Process in action, I’m convinced it is the most powerful way to make rapid and lasting changes in any area of your life”.

Austin Healey, former international Rugby player

The Complete Training Route...

The Phil Parker Training Institute (PPTI) is the only College where you can train to be a Lightning Process Practitioner. Before taking the LP Practitioner training, you need a deep knowledge and practical and clinical experience of NLP, Coaching and Hypnotherapy - this is provided by our Diploma and Masters courses.

Below is an overview of your training route and the costs and timescales involved. All three of these are separate, self contained courses which means that you don’t need to sign up to them all in one go or even in one year, and can spread the cost or time training to suit you – although we usually find that once people start training with us they are having so much fun they just want to continue!!

1. Clinical NLP Practitioner and Coaching Diploma

Full course details...

To be a LP Practitioner you need to be a member of the Register of LP Practitioners. Taking this course, passing the exams associated with it, and purchasing a licence, qualifies you for membership of the Register. Continued membership of the Register relies on compliance with the LP Code of Conduct, undertaking regular supervision and Continuing Professional Development (CPD).

Initially students observe Phil running the three day LP seminar with clients followed by training of how to run the seminars as a practitioner. Students are then required to observe two further practitioners running the LP training and attend a full day workshop focusing on delivery skills. Students are also invited and encouraged to attend the annual LP Practitioner CPD Conference.

Course Fees

Please be aware that the fees are subject to change each year; however these are the 2017 fees for your reference:

1. The LP three day practitioner course, two observations, two day delivery skills workshop, course videos and materials, Q&A skype call with Phil, attendance at the CPD Conference and practical and written exams = £1750 +VAT
2. Additional exam fees are charged if you are required to retake either exams - Written Exam = £40 +VAT, Practical Exams = £135 +VAT
3. Annual Licence for practicing in the UK = £550 +VAT
Annual Licence for practicing in countries other than UK = £1000 +VAT per country
(The first year licence has a 25% reduction as it is recognised that students cannot practice for the first quarter of the year before they are able to qualify)
4. 15% of all LP fees +VAT (where applicable) are payable to the LP register
5. Annual Continuing Professional Development (CPD) for all registered practitioners, this includes attendance at the annual conference and Phil's additional lecture = £200 +VAT (this is included in the course fees for the first year)

On application you will receive full details including the LP licence, code of conduct and other practitioner policies, course dates will also be confirmed.
